In 2019, Maze Creative Department designed the complete branding for the graduation ceremony of Komar University of Science and Technology. This branding initiative set the foundation for the university's visual identity for graduation ceremonies, as the colors, themes, and design elements introduced by Maze continue to be used consistently in all subsequent ceremonies. This long-term impact highlights Maze's ability to create meaningful and lasting brand strategies.

SHAW  
HASSAN

We are pleased to present Shallaw's Branding. Our design features two smooth lines forming the letter 'L', symbolizing elegance and professionalism. We selected Lisbon Brown and Moon Mist as the brand colors, reflecting a sophisticated and modern aesthetic. Additionally, we used well-symmetric lettering to ensure a balanced and visually appealing logo. We believe this design captures the essence of your consultancy and will serve as a strong visual representation of your brand.

KMCA  
Kurdistan Medical Control Agency

The Salmati Project launched a campaign to raise awareness about safe medicines through official government-approved stickers. Pharmacies were encouraged to display these stickers along with related posters, helping educate the public about which medicines were officially approved. The campaign not only influenced pharmacies but also led to increased government attention and action on the issue. The Prime Minister of KRG even acknowledged the campaign's significant impact on public awareness and safety.

IMPERIAL  
*Village*

Imperial Village is one of the largest and most luxurious residential developments in Slemani, Iraq. We collaborated closely with the development team, contributing from the initial naming of the place to comprehensive branding, digital media management, and media buying strategies.

We designed this logo using two interlocking circles to form the shape of an "S," symbolizing the unity and cohesion of the group of companies. The "S" also represents the initial letter of the company name, creating a cohesive and meaningful brand identity.

A 3D maze with a path leading to the text "Thank You." The maze is composed of white rectangular blocks forming a complex, winding path. The path starts from the left side of the image and leads towards the center-right. The text "Thank You." is written in a simple, black, sans-serif font on the right side of the maze. The lighting is soft, creating subtle shadows and highlights on the edges of the maze blocks.

Thank You.
